Re: Cibicides hazzardi Zone, Reservoir B
GILLIS-ENGLISH BAYOU FIELD
Calcasieu Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **JORDAN OIL COMPANY** for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the Cibicides hazzardi Zone, Reservoir B, in the Gillis-English Bayou Field, Calcasieu Parish, Louisiana:

1. To establish rules and regulations and to create a single drilling and production unit for the exploration for and production of gas, oil, or condensate from the Cibicides hazzardi Zone, Reservoir B, in the Gillis-English Bayou Field, Calcasieu Parish, Louisiana, said unit to be designated CIB H RB SUA, as shown on the plat attached hereto and made a part hereof.
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed unit with each tract sharing in unit production on a surface acreage basis of participation.
3. To provide that any future wells drilled to the above referenced zone, within or outside of the unit created herein, should be located in accordance with the spacing provisions of LAC 43:XIX.1901 et seq. (Statewide Order No. 29-E).
4. To provide that the Commissioner of Conservation should be authorized to reclassify the above-mentioned reservoir by supplemental order without the necessity of a public hearing if the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation.

5. To consider such others matters as may be pertinent.

The *Cibicides hazzardi* Sand, in the Gillis-English Bayou Field, Calcasieu Parish, Louisiana, was previously defined in Office of Conservation Order No. 252-H, effective March 9, 1971. The *Cibicides hazzardi* Zone, in the Gillis-English Bayou Field, is hereby defined as being that gas, oil, and condensate bearing zone encountered between the depths of 7,610 feet and 8,280 feet (electrical log measurements) in the Edwin L. Cox, et al – Clara Barbe No. 1 Well, located in Section 1, Township 9 South, Range 8 West, Calcasieu Parish, Louisiana.

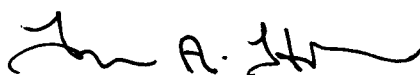

Pertinent data, including well logs, may be obtained **AT THE COST OF THE REQUESTING PARTY** from James F. Hardwick & Associates, 1101 S. Hugh Wallis Road, Suite 101, Lafayette, Louisiana 70508, Telephone Number (337) 232-7756.

Pursuant to the Rules of Procedure, a pre-application conference was held on February 19, 2007, in Lafayette, Louisiana, at which the parties named on the attached list were in attendance. The conference was opened by James F. Hardwick for the applicant who explained the bases for the unit being requested. Questions were asked and answered. One counterplan was presented by Mr. Ed Patterson of the Office of Mineral Resources. After the conference was adjourned, differences were resolved. Opposition is not expected at the hearing to be scheduled in this matter.

Attached hereto and made a part hereof are a plat outlining the applicant's proposal, the conference attendance list, and a list of the names and addresses of the Interested Owners, Represented Parties, and Interested Parties to whom a copy of this application is being mailed. Pursuant to the Revised Rules of Procedure, such plat (being the same plat attached to the pre-application notice dated January 26, 2007) and list of parties are being furnished ONLY to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the plat and/or list of parties will be furnished to any party requesting copies. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

Finally, enclosed is our check in the amount of \$755.00, **made payable to the Office of Conservation** submitted on behalf of the applicant representing the required hearing application fee.

Very truly yours,

Travis A. Helms
